Sir:

In response to the Examiner's Action mailed on March 25, 2002, please
amend this application as follows.

IN THE CLAIMS

Please **RENUMBER** the pending claims as follows:

17. (Renumbered) An antenna for a portable communication apparatus, the antenna comprising a radiator having a first end to be connected to radio circuitry in the portable communication apparatus, and a second end, a feedback conductor having a first end, which is electrically connected to the second end of the radiator, the feedback conductor extending along the radiator in a first direction from the second end of the radiator towards the first end of the radiator, wherein the feedback conductor includes a second end, extending along the radiator in a second direction towards the second end of the radiator, for tuning a frequency range of the antenna.

18. (Renumbered) The antenna according to claim 17, wherein said radiator is an elongated helical radiator.
